SUMMARY

Highly motivated and meticulous student of BTech. In Computer Science with a proven ability to lead engineering projects from conception to completion. Skilled in research, data analytics, and machine learning, with expertise in Python, Java, and C++. Seeking internships in project management or development, leveraging strong communication, organizational, and problem-solving skills.

SKILLS

- Programming languages: Java, C++, Python
- Machine learning in Python
- API integration
- Data analytics
- Deep learning

EDUCATION

VIT Bhopal University, Bhopal, India — *BTech. in Computer Science*

SEPTEMBER 2023 - Ongoing

Little Flower House, Varanasi, India — *Secondary High School*

August 2021 - MAY 2023

Sacred Heart Convent School, Obra, India — *Primary and High School*

APRIL 2009 - MAY 2021

CERTIFICATES

- Getting Started with Artificial Intelligence, IBM
- Introduction to AWS Cloud for Solutions, IBM
- Machine Learning in Collaboration with Google for Developers, The SmartBridge

LANGUAGES

Hindi Advance
English Intermediate

PROJECTS

- **Estimating stock-keeping units using ML:** This project used machine learning to predict optimal stock levels, aiming to reduce costs and improve supply chain efficiency.
- **Flood Risk Prediction and Mitigation using Random Forest ML Algorithm and Real-Time Weather Data:** This initiative developed a system using the Random Forest algorithm and real-time weather data to predict flood risks and support mitigation.
- **Document Forgery Detection:** This project focused on building a system to identify forged documents using image processing and machine learning for enhanced security.
